Material Safety Data Sheet
Revised April 26th, 2007

1-PRODUCT AND COMPANY INFORMATION

Common Name, Trade Name, or Specification:
Non-Asbestos Board (NA-300/320/295/370)

Lewco Specialty Products, Inc.
6859 Renoir Ave., Baton Rouge, LA 70806
Company Telephone No.: 225-924-3221
Company FAX: 225-927-2918

2-IDENTIFICATION INFORMATION

4-FIRST AID MEASURES

Inhalation: Move to fresh air. Obtain medical attention.

Eyes: Flush with water to remove particulate. Obtain medical attention.

Skin: Wash thoroughly with soap and water. If persistent irritation develops, obtain medical attention.

Ingestion: Obtain medical attention.

5-FIRE FIGHTING MEASURES

Auto-ignition Temperature: This product is inherently flame resistant.

Flammable Limits in Air: % in Air by Volume: LEL: N/A UEL: N/A

Extinguisher Media: Carbon dioxide, chemical, or foam
Special Firefighting Procedure: Material in or near fires should be cooled with a water spray or fog. A self-contained breathing apparatus, operating in the positive pressure mode, and full fire fighting protective clothing should be worn for combustion may produce dense smoke, oxides of carbon, and low molecular weight organic compounds whose composition has not been characterized.

6-ACCIDENTAL RELEASE MEASURES

If a release of dust occurs during machining, abrading, or riveting, remove dust by vacuuming or wet mopping. Vacuums used for this purpose should be equipped with HEPA filters. Do not use compressed air to blow dust from the workplace.

7-HANDLING AND STORAGE

Shipping and storage may result in accumulation of dust in shipping containers. If this occurs, dispose of the container in an airtight polyethylene bag (see disposal instructions below) or remove dust by vacuuming or wet mopping. Vacuums used for this purpose should be equipped with HEPA filters. Do not use compressed air to blow dust from storage containers.

8-EXPOSURE PREVENTION MEASURES

Respiratory Protection: Use NIOSH-approved respirator if exposure to dust, vapors, or fumes in concentrations exceeding PEL’s or TLV’s possible.

Ventilation: Any operations which may produce dust, including machining, grinding, riveting, or abrading of this product, should be adequately exhausted to prevent inhalation of dust.

Personal Protective Equipment: Suitable respiratory protection should be worn if dust exposure is possible. All regulations and safe practices related to the use of respiratory protection must be observed. Refer to OSHA standards and NIOSH guidelines. If skin irritation occurs, gloves and other protective garments may be worn.

9-PHYSICAL AND CHEMICAL PROPERTIES

- Melting Point: 350°C/350°C/250°C/350°C
- Solubility in water: Insoluble
- Order: None
- Specific Gravity: 1.0-1.5
- Color: Blue/White/Green/Navy-blue
- Form: Solid

10-STABILITY AND REACTIVITY

- Stability: Stable at normal temperatures and storage conditions
- Incompatibility: None
- Hazardous Decomposition Products: None
- Hazardous Polymerization: Will not polymerize. This product is fully cured in the manufacturing process.

11-TOXICOLOGICAL INFORMATION
SEPIOLITE FIBER (Powdered)
Inhalation of high concentrations causes respiratory irritation, coughing, chest pain and so on. Enter the eye irritation as a foreign body, Oral harmful to our health.

SYNTHETIC RUBBER (Powdered)
Inhalation hazards-May cause mild irritation of respiratory tract. Repeated and prolonged inhalation of dust may lead to a benign pneumoconiosis. This condition may cause some lung function impairment but is reversible with reduced exposure. Other hazards-Eyes-may cause mild transient eye irritation.

AILEIMIDE FIBER (Powdered)
Inhalation of high concentrations causes respiratory irritation, coughing, chest pain and so on. Enter the eye irritation as a foreign body, Oral harmful to our health.

NON-ASBESTOS FIBERS (Powdered)
Inhalation of high concentrations causes coughing, chest pain and so on. Enter the eye irritation as a foreign body, Oral harmful to our health.

12-ECOLOGICAL INFORMATION
No ecological test data has been developed. impact to aquatic, terrestrial and air environmental media is judged as insignificant

13-DISPOSAL CONSIDERATIONS
Disposal of solid waste is regulated by law. Waste should be place in airtight containers, and dispose of properly. Contact local regulatory agency for guidance.

14-TRANSPORT INFORMATION
Not regulated as a hazardous material by DOT (China Department of Transportation) or IMO. Ship in sealed boxes appropriately rated for weight capacity

15-REGULATORY INFORMATION
Labor Safety and Health Act
Waste Disposal Act

16-OTHER INFORMATION
The information and recommendations set forth herein are taken from sources believed to be accurate as of the information or the suitability of the recommendations, and assumes no liability, including direct, incidental or consequential damages for any reliance thereon. This MSDS should not be used as a complete or accurate or accurate summary of the content of the product. For specific information on brand names, manufacturers, or quantities, please refer to specific product specification documents where available.
